

Ken Nix & Associates, Inc. (KNA) is dedicated to being the leader in the power quality and precision cooling markets. We specialize in the design and implementation of data center and container solutions. KNA has developed a system that offers total solutions. We provide quality service throughout the design and installation processes for both commercial and government customers.

By using an innovative approach to our overall strategy we can provide the best cabling and hardware recommendations. We also provide installation solutions for customers while remaining cost effective and providing an efficient solution. Our entire team's focus is on total customer satisfaction.

KNA serves customers in:

- The Continental U.S.
- Hawaii and Alaska
- International Projects for the U.S. Government

Container Solutions

- Rapid Deployment
- Cost Efficient Solution
- Customized to Suit Specific Needs and Budgets
- Self-Contained Mobile Data Centers
- Command and Control Centers
- Portable Chillers
- Portable Generators

Conceptual Design

- Pre-Sale Effort; Work with the customer to design the most efficient, cost effective solution
- Initial Customer Meeting
- Site Conditions Assessment
- Space Planning and Layout
- Conceptual Drawings
- Statement of Work

Engineering and Design

- Electrical, Mechanical, Architectural, Structural
- Design Intent Drawings
- Construction Drawings
- As-Built Drawings

Project Management

- Single Point of Contact
- Regular Project Status Updates
- Project Schedule
- Communication Plan
- Coordinate All Daily Activities

Data Center Construction

- Uninterruptible Power Supplies (UPS)
- Generators and Automatic Transfer Switches (ATS)
- Data Cabling
- Grounding
- Power Distribution Units (PDU)
- Rack/Cabinet Installation
- Complete Data Center Build-Out
- Precision Cooling
- Fire Suppression

Structured Cabling

- Design and Installation Services for all size projects and environments
- Cat 5e, Cat 6, Cat 6a, Coax, Fiber Optic cabling with in house installation
- Cable Management Design and Implementation
- Cable Testing and Certifications
- BICSI and Multiple Manufacturer Certified
